

## SolCast

### Automated Call Notification and Reminder System

#### Overview

SolCast is capable of contacting any number of set call recipients to share custom and unique data along with pre-recorded phone messages. Great for efficiently communicating reminders, renewals, notices and alerts.

Available as a standalone solution or as a licence option for your existing SolSwitch solution, this technology has both commercial and community applications.

#### How can SolCast Help You?

You want to stay in contact with regular customers? Communicate important messages to people who are counting on hearing from you? SolCast works for you!

Messages are delivered to both individuals and answering machines/voicemails. If SolCast detects a no-answer condition or busy signal – the message can be automatically scheduled for re-delivery at a later time.

Complete reports are available to view the effective delivery and result of broadcasts.

#### Here are some examples of SolCast applications:

- Appointment Reminders
- Membership Renewals
- Oil Change Reminders
- Warranty Renewals
- Delivery Notifications
- Debt Reminders or Notices
- Emergency Alerts
- Special Offers & Incentives
- Service Pickups
